PROFESSIONAL SUMMARY

Full-Stack Web Developer and Technical Project Manager with 10+ years of combined experience building and delivering web projects — equally comfortable writing production code or owning a project end-to-end as the primary point of contact for clients, stakeholders, and teams. Hands-on development background in PHP, MySQL, JavaScript, WordPress, HubSpot CMS, and Webflow gives an accurate, technically grounded read on scope, task estimation, and realistic timelines when managing projects. Skilled in project planning, budgeting, risk management, and stakeholder communication (Jira, ClickUp, Monday.com) as well as custom themes, plugins, backend functionality, and API/CRM integrations. Comfortable working independently across multiple concurrent projects, coordinating with international clients and distributed teams in clear, professional English.

CORE SKILLS

Project Management: Project Planning (Scope, Budget, Timeline, Resources), Team Leadership, Stakeholder & Client Communication, Risk & Issue Management, Frontend/Backend Task Estimation, Agile Workflows

Development: PHP, JavaScript, HTML5/CSS3, MySQL, WordPress (Theme & Plugin Dev), HubSpot CMS, Webflow, RESTful API Development & Integration

Tools: Jira, ClickUp, Monday.com, Slack, Git/GitHub, Google Workspace

Communication: Client & Stakeholder Reporting, Technical Documentation, Cross-Team Coordination, International Client Communication

PROFESSIONAL EXPERIENCE

Technical Project Manager | *Get Levrg — Dhaka, Bangladesh (Hybrid)* **Mar 2026 – Present**

- Develop and implement project plans and timelines — scope, budget, deliverables, and resources — for a portfolio of concurrent, including international, client accounts.
- Manage day-to-day project activities as the primary point of contact for clients and technical teams, ensuring tasks are completed within established timelines and budgets.
- Lead and manage development and design teams, evaluating and weighting frontend and backend tasks based on hands-on technical background to keep estimates realistic.
- Oversee HubSpot and WordPress CMS implementations, migrations, and integrations; track progress using Jira, ClickUp, Monday.com, and Slack.
- Awarded the CEO Award at Get Levrg in recognition of performance, contribution, and impact.

Full Stack Developer | *Get Levrg — Dhaka, Bangladesh (On-site)* **Apr 2025 – Mar 2026**

- Developed and maintained responsive websites and web applications using WordPress, HubSpot CMS, Webflow, PHP, JavaScript, HTML, and CSS.
- Built custom themes, plugins, and backend functionality; integrated third-party platforms, APIs, CRM systems, forms, and payment gateways.
- Handled website migrations, troubleshooting, and technical maintenance, improving performance, SEO, and accessibility across client projects.
- Collaborated closely with designers, project managers, and clients throughout the project lifecycle, managing workflows via Git, Jira, and Monday.com.

Executive, Information Technology | *FMC Group of Companies — Chittagong, Bangladesh* **Jan 2019 – Jan 2023**

- Designed and developed WordPress themes from scratch and customized existing themes to meet business and brand requirements.
- Built and integrated custom plugins to extend site functionality, working directly with the underlying MySQL database layer.
- Enforced application security and data-protection best practices through regular core, theme, and plugin updates.
- Optimized application performance through caching strategies, image compression, and code minification.
- Led a major version upgrade of core software and website infrastructure, improving speed and user experience.

Web Developer | *Whiz Communications — Chittagong, Bangladesh* **2017 – 2019**

- Designed, developed, and updated client websites according to project requirements and specifications.
- Led planning and execution of web development projects, defining technical requirements and coordinating tasks among team members.

- Troubleshot and resolved complex technical issues across existing systems and codebases.

Software Developer (Part-time) | *FMC Group Ltd — Chittagong, Bangladesh* **Jun 2016 – Dec 2019**

- Wrote efficient, maintainable code and built websites following standard HTML/CSS development practices.
